Re: SafeLandUSA presentation July 21, 2001

Oil and Gas Operating Companies;

SafeLandUSA is dedicated to improving Health and Safety performance in the Upstream Oil and Gas industry. Our current project is an HSE orientation for all US Onshore contractors. This will ensure that workers have an awareness of basic hazards and HSE practices in the oilfield while reducing redundant operating company orientations.

Operating Companies supporting this effort include:

- Anadarko Petroleum Corporation.
- BP America Production Co
- Encana Oil & Gas
- ExxonMobil U.S. Production Co
- Highmount E&P LLC
- Marathon Oil Company
- Murphy Exploration and Production
- Newfield Exploration
- Occidental Oil & Gas
- Rosetta Energy
- Shell
- Tetra Technologies

The SafeLandUSA Advisory Group invites you to participate in information exchanges during STEPS Network meetings across the country.

For additional information: www.nationalstepsnetwork.com

The SafeLandUSA pilot program was initiated in the South Texas Region on December 17, 2008 and is ongoing. Feedback is very positive and roll out to all USA land based operations will be January 1, 2010.

SafeLandUSA orientation:

- ✓ Consistency and solidarity between operating companies
- ✓ Cost savings due to less re-training of contractors - reciprocity
- ✓ A widely accepted minimum basic orientation standard for the US Onshore E&P industry
- ✓ A template for site specific orientation
- ✓ Access to a large network of qualified trainers and educational facilities spanning the U.S.
- ✓ Photo ID cards with access to worker information by scanner, computer or telephone
- ✓ Quality assurance through an audit program and oversight committee
- ✓ Tests administered through accredited trainers to verify knowledge retention
- ✓ SafeLandUSA website www.safelandusa.org

Note: SafeLandUSA does not replace site specific orientation and emergency plan reviews which should be conducted at work sites.

Please contact one of the SafeLandUSA Advisory Group members listed below with questions:

- Dustin Hoffpaur , Anadarko Petroleum: dustin.hoffpaur@anadarko.com
- Rick Ingram, BP America Production Co.: rickey.ingram1@bp.com
- James Thatcher, Encana O&G: James.Thatcher@encana.com
- Scott Arnold, ExxonMobil: scott.e.arnold@exxonmobil.com
- Damon Buster, Shell: damon.buster@shell.com
- Roosevelt Smith, Tetra Technologies: rsmith@tetrathec.com

Thank you for your support as we move forward. We look forward to providing additional details at upcoming STEPS Network meetings across the country.

Sincerely;

SafeLandUSA Advisory Committee
